Mr. Kurt Lindland
United States Environmental Protection Agency
Region 5
77 West Jackson Boulevard
Chicago, Illinois 60604-3590

Dear Kurt:

**Re: Albion-Sheridan Township Landfill Site
Albion, Michigan**

Contact has been made with the owners of the land to the south and west of the landfill. It turns out that "Walt Gill" is deceased. The land reportedly is now owned by Richard Gill. His wife advises us that they already have given Leah Evison a written document providing access to the property. We didn't know that. Would you please locate the document referred to and provide a copy.

Mr. Prater was also contacted. He is thinking over what price he wants for the house and land. We'll let you know what further progress is made.

I still haven't received any response from Cooper/Corning to the several letters that I sent requesting information about the use of the property and the prior contacts with the owners. Perhaps you would ask them to cooperate.

We still have not yet received a copy of the Woodward-Clyde fax that Jon Peterson received on March 17, 1997. He said it outlined what land rights Cooper/Corning thought would be needed. It was Decker's understanding that Jon would be sending that document. As you know, we requested that information on several prior occasions. Please check on its status, if you would.

Please advise whether a new design report plan has been received by the EPA, and provide a copy of it if you have received it.

If you have any questions, please let me know.

Yours very truly,

**BULLEN, MOILANEN,
KLAASEN & SWAN, P.C.**
